

Healthy Home Insulation

PERSONAL COMFORT
MORE ENERGY EFFICIENT
HEALTHIER
OUR ENVIRONMENT

ICYNENE foam insulation allows for better control of building internal temperature, humidity, and pollutants thus providing a cost effective, comfortable and healthy living environment.

ICYNENE delivers up to **50% energy savings** versus traditional insulation.

Water is the only blowing agent. **ICYNENE contains no HCFCs, HFAs, HFCs, formaldehyde or volatile organic chemicals.** It seals out dust, pollen and other allergens from entering the structure. As an air barrier, ICYNENE minimizes the potential for condensation and the subsequent mold and mildew

ICYNENE is approved as a "green" building material due to classification as a 100% water blown chemicals and for its outstanding energy conservation properties
